Save money and find what you want faster!

The MacAtoZ Online Store has been almost completely re-written so that you can find the products you want faster. Each major Apple computer (Mac mini, iMac, MacBook Pro, etc.) has its own section complete with additional peripherals that make sense for the computer you're buying (or already own).

For example, if you're looking to buy a MacBook, you can now go to the store's MacBook section and see not only the available stock MacBooks, but also the appropriate Apple Cinema Displays, keyboards, and mice that fit nicely with such a purchase.

Don't forget the online store typically gives you free shipping on orders over \$25 and usually offers below retail pricing on almost every item. It's a great way to save money and support us so that we can continue to support you.

Where to buy a new hard drive

The long-standing computer axiom is that one can never have too much RAM or too much hard drive space. If you'd like to test that truism, we're here to help.

In addition to RAM, MacAtoZ now also sells hard drives and drive enclosures (USB 2, FireWire 400/800). If your Mac is running out of storage space, give us a call or send us an email. We'll be happy to advise you on the right hard drive for your intended usage.

Remember: The new Mac OS X 10.5 Leopard's "Time Machine" automated back-up system *requires* an external hard drive. If you don't already have an external drive for backing up important data, it wouldn't hurt to be prepared for Apple's new operating

About MacAtoZ LLC

Founded in 2006, our company specializes in helping individuals and small businesses get the most out of Apple and Apple-related products. Toward that end, we've developed a unique remote support program called the MacAtoZ Service Suite (MSS).

MacAtoZ is owned and operated by Ty Davison, an Apple Certified Help Desk Specialist and member of the Apple Consultants Network.

system.

Mac Tip o' the Month

Just meet someone new and want to send them your contact information? Address Book makes it easy.

Once you've entered your new friend's email address into Address Book, you can click and hold on the Home, Work, or Other label next to their email address to get a contextual menu. From this contextual menu, select "Send Update..."

The resulting Send Update dialog box allows you to enter a subject line and a message. Once you OK those, Address Book automatically sends an email to your new friend. That email will include your subject line, message, and a vCard which contains all your contact information.

If your new friend is a Mac user, you might even want to forward this email to them so that they can easily send their vCard information to you.

Save
\$25

Members of the Salem Macintosh Users Group get \$25 off their first hour of onsite support during 2007. That's a big savings off our already low \$72/hr rate, and since annual SMUG membership is only \$25 it's like joining SMUG for free! Not a SMUG member? Join when we come out! [Offer valid once per household. Some SMUG members have already received this benefit. This is a reminder not a coupon.]

Promotion Expires: 12/31/07
