#### Email Seminar: All about Apple Mail

MacAtoZ will be holding a seminar on Saturday, March 22 from 10 AM to noon at Comfort Suites in Salem on the topic of Apple's Mail application (specifically the Mac OS X 10.5 "Leopard" version, but a lot of it will apply to the 10.4 and 10.3 versions, too).

We'll be covering items like how to set up a new account; troubleshooting email problems; using rules, stationary and signatures; and much more.

The cost is just \$30. Salem Mac Users Group members get a \$5 discount. (MSS Tier 3 members have an additional discount and have already been notified about this event. If you'd like to receive this type of advance notification and discount, please consider joining [MSS Tier 3](#).) .

**IMPORTANT:** Space is limited to 15 people, and we will be announcing the seminar at Tuesday evening's SMUG meeting. If you are interested, please contact us ASAP to reserve a spot.

consultancy not a reseller. Although we make a small commission from our online store, if our online store won't save you money or get you the buying experience you need we'll happily point you to another vendor. (For example, for hands-on product demonstrations we're particularly smitten with the Apple Store at Bridgeport Village.)

Because we don't make much (or sometimes any) money through sales, we can offer impartial advice on purchasing decisions. You will never find us trying "upsell" you anything.

So give us a call the next time you're looking for a Mac or Mac-related product. Let's see if together we can get you exactly what you want and save money doing it.

### **Mac Tip o' the Month**

Do you have a problem with ACCIDENTLY HITTING THE CAPS LOCK KEY? Even if you're a touch typist it's possible to have the pinky finger hit Caps Lock instead of Tab or Shift. How often do we really use Caps Lock, anyway?

If you'd prefer to have Caps Lock disabled, you can go to System Preferences > Keyboard & Mouse. Under the Keyboard tab, click the Modifier Keys button. Then you can set the Caps Lock pull down to "No Action" and be UNTRoubled BY ACCIDENTAL CAPS LOCK KEYPRESSES.
